

Fabulous Styles for the Festive Season

Jackie Fitzpatrick of Five Star salon Hair at Number One, Carlingford, tells us which styles will be hot for the forthcoming Christmas party season...

Sleek Hair-up

With bespoke buns, sexy chignons and textured ponytails, this look is on all the catwalks.

With the perfectly polished hair scraped into a ponytail, it is either carefully sculpted into the desired bun shape, secured high on the head, to the side, or ruffled into a sexy tail.

The Individual Trendsetter

Be adventurous and combine some of the season's key trends of crimping, plaiting oversized quiffs and backcombing, using lots of product to create your own individual look. You can construct a look with a twist on Boho chic or the 80s rock chic look.

Silver Screen Siren

Curls are definitely here to stay, but this season is all about big volume.

To get this look, apply volume mousse and set in large rollers. Brush through and then mould into shape.

Vintage Glamour

My favourite look is all about romance and glamour, reminiscent of an era where innocence and femininity were celebrated.

This look can be achieved by setting in rollers, smaller at the nape and under sections, working through to bigger ones. The hair is then gently teased and moulded into shape, and secured with grips for this delicious look.

"This party season it's all about power and glamour; some will follow trends and some will set their own"

Hair at Number One
